

Job Description

Position Title: Front of House Engineer- Lexington (Part-Time 12-15 hours)

Position Summary:

In collaboration with our Lexington tech and worship teams, we are seeking an Front of House Engineer with outstanding mixing skills. Every Sunday we strive to execute our services at the highest level, as part of the team we're seeking an individual who is eager to be a part of shaping the weekly worship experience.

The right individual for this position will have a solid understanding of signal flow, digital and analog patching and proper micing techniques. They will have strong knowledge of EQ, compression and effects processing in a live environment. Church worship is different from other audio mixing experiences and the right individual will understand the nuances of the worship environment we try to shape each week.

This is not a studio mixing position.

Key Qualifications:

- **Passion:** A passion for the local church in general and for the ministry of Grace Chapel in particular
- **Team Work:** Maintain constructive, positive relationships with the staff, technical and worship team volunteers. Able to handle constructive feedback from worship and tech leaders.
- **Audio Concepts:** Strong knowledge of best practices in live sound mixing. Able to develop and follow patch sheets.
- **Maintenance:** General understanding in the upkeep and maintenance of basic audio components.
- **Workload:** Ability to manage multiple priorities calmly under pressure and to adjust, when needed, to the changes in priorities or conditions of the fast-paced live worship environment.
- **Education and Experience:**
 - 2 Years of Front of House mixing experience required. Will consider combined formal education and experience.
 - Experience in a leadership role preferred.
 - Experience working in or with a church preferred.
 - Knowledge of Avid and Allen & Heath mixing boards, Aviom and Q-sys DSP's preferred.

Key Working Relationships and Responsibilities:

- Setup audio equipment and mix Wednesday practice and Sunday morning worship services
- Perform weekly preventative maintenance on main sanctuary's audio equipment
- Develop weekly patch lists and stage plot in collaboration with worship leaders
- Assist in recruiting and training audio volunteers
- Opportunity for event support for additional hours as available
- Reports to Grace Chapel Director of Worship Media Technology
- Collaborates with Assistant Director of Worship Media Technology
- Collaborates with our weekly worship and technical teams

Submission Process:

If after prayerful consideration you would like to be considered for this position, then we invite you to join in the application process. Please submit your current resume with a cover letter briefly describing your faith background and the reason for your interest in this position. These items should be submitted in electronic format only to: resumes@grace.org. No phone calls please. You will receive an email confirming our receipt of your submission.

About Grace Chapel:

Grace Chapel is a non-denominational, multicultural church that welcomes everyone, no matter what your faith background or where you are on your spiritual journey. We believe that life with God doesn't just make our lives better; it makes us better for the world around us. We began in 1948, when a few families in Lexington, Massachusetts started weekly gatherings in their home for a time of worship, Bible study, and prayer. Since incorporating in 1956, we've grown from a few dozen people in a rented space in Lexington to 4,000 people coming together for Sunday services and midweek programs across five campuses: Lexington, Wilmington, Watertown, East Lexington, and Foxboro.
